Docket No.: 103080-P08-058

## **Amendments to the Claims**

This listing of claims will replace all prior versions and listings of claims in this application:

## Listing of Claims:

- 1-50. (Canceled).
- 51. (Previously presented) A method of producing a blastula or morula comprising:
- (i) inserting a desired differentiated human donor cell or cell nucleus into an enucleated bovine oocyte under conditions suitable for the formation of a nuclear transfer (NT) unit;
- (ii) introducing mitochondria or mitochondrial DNA derived from a human cell or cells into said oocyte;
  - (iii) activating the resultant nuclear transfer unit; and
  - (iv) culturing said activated nuclear transfer unit to the morula or blastula stage.
- 52. (Previously presented) The method according to claim 51, wherein said mitochondria or mitochondrial DNA is derived from the cells of the donor.
  - 53. (Canceled).
- 54. (Previously presented) The method according to claim 51, wherein said step (ii) may be performed before or after step (i).
- 55. (Previously presented) The method according to claim 51, wherein said step (ii) may be performed before or after step (iii).
- 56. (Previously presented) The method of claim 51, wherein step (iv) comprises culturing said nuclear transfer unit on a feeder layer.
- 57. (Previously presented) The method of claim 56, wherein the feeder layer comprises fibroblasts.

58. (Previously presented) The method of claim 57, wherein the feeder layer comprises mouse embryonic fibroblasts.
